<b>Commitments (note 4)</b>			

**COMPTROLLER-GENERAL'S CERTIFICATE**

The above statement of assets and liabilities as at March 31, 1975, is in agreement with the books of the Province of British Columbia.

In my opinion this statement is properly drawn up so as to exhibit a correct view of the financial position of the Province as at March 31, 1975.

J. W. MINTY, C.A.  
Comptroller-General

**NOTES TO FINANCIAL STATEMENTS****1. Accounting**

The accounts of the Province are maintained on a cash basis whereby revenues are taken into the accounts in the fiscal period in which they are received and expenditures are charged when the actual payments are made. The financial statements reflect this cash-basis accounting but with two major modifications:

- (1) Moneys received in April of the next following year pertaining to cost-sharing programs with other governments (principally the Government of Canada) and for which the relative program expenditures have been charged to the current year, are included in revenues and shown as accounts receivable in the statement of assets and liabilities.
- (2) Accounts payable at March 31 for which cheques are issued during April of the next following year are included in current-year expenditures and are shown as accounts payable in the statement of assets and liabilities.

Taxes and other accounts receivable are shown as assets for record purposes only through credits to Capital Surplus Account. These accounts are not included in revenue until received in cash.

The interest of the Province in its Crown corporations is shown in the financial statements only to the extent of the amounts actually invested in or advanced to them; thus accumulated earnings (or deficits) of these organizations are not reflected therein. Financial statements of Crown corporations and other Government agencies are presented in Section F of this report.

**2. Loans and advances**

These are carried as assets at book value (net of reserves in certain cases), as the amount of their ultimate realization cannot be determined at this date.

**3. Unmatured debt**

In addition to providing for the redemption of all unmatured debt as it falls due (as indicated on the statement of assets and liabilities), sinking funds provide for the payment of all interest thereon.

**4. Commitments**

No provision is made in the accounts for commitments under construction or other contracts in force at the year-end. Such future expenditures are charged to appropriations in the years in which the work or service is performed.

# SUMMARY OF TRANSACTIONS FOR THE FISCAL YEAR ENDED MARCH 31, 1975

**NOTES TO FINANCIAL STATEMENTS, DECEMBER 31, 1974****Note 1—Status of the Company**

The Company was incorporated as British Columbia Cellulose Limited on March 15, 1973. The *British Columbia Cellulose Company Act*, R.S.B.C. 1973 (1st Sess.), chapter 8, assented to April 18, 1973, made the Company a Crown corporation under the name of British Columbia Cellulose Company.

**Note 2—Subsidiary Companies**

At December 31, 1974, the Company owned 79 per cent of the outstanding shares of Canadian Cellulose Company, Limited and 100 per cent of the issued shares of Kootenay Forest Products Ltd. These subsidiaries have not been consolidated in these financial statements as the investment in Canadian Cellulose Company, Limited (a reporting company) has been presented on the equity basis; Kootenay Forest Products Ltd. is recorded at cost inasmuch as its first fiscal year-end since acquisition is to be February 28, 1975.

**Note 3—Canadian Cellulose Company, Limited**

On June 29, 1973, British Columbia Cellulose Company acquired a 79 per cent interest in Canadian Cellulose Company, Limited by procuring a guarantee of the Crown in right of the Province of British Columbia for its first mortgage bonds which aggregated \$60,000,000 (U.S.) at December 31, 1974. At June 29, 1973, the equity of Canadian Cellulose Company, Limited was \$1,998,117 and accordingly \$1,575,075 has been taken up as negative goodwill in the accompanying statements. Extraordinary income of \$19,561,168 is comprised of prior years' losses and depreciation charges claimed for tax purposes.

**BRITISH COLUMBIA CELLULOSE COMPANY—Continued****NOTES—Continued****Note 4—Kootenay Forest Products Ltd.**

On February 28, 1974, British Columbia Cellulose Company acquired all of the issued shares of Kootenay Forest Products Ltd. and the assets of the Kootenay Forest Products and Stafford Mills Divisions of the Eddy Match Company, Limited. The purchase price of \$14,350,435 for plant, working capital, and interest resulted in British Columbia Cellulose Company acquiring the right to an amount owing from Kootenay Forest Products Ltd. of \$11,602,729, together with shareholder's equity at a cost of \$2,747,706. On December 30, 1974, the Directors agreed to defer payment of all debts owed to the Company by Kootenay Forest Products Ltd. until all sums borrowed by Kootenay Forest Products Ltd. from the Royal Bank of Canada have been repaid.

**Note 5—Plateau Mills Ltd.**

In June 1973, British Columbia Cellulose Company purchased 8,725 of the 9,000 issued shares of Plateau Mills Ltd. The shares were subsequently sold to the Province of British Columbia and in February 1974 a further 50 shares were purchased by the Company and resold to the Province of British Columbia. The Company has an option agreement to purchase the remaining 225 shares, exercisable by June 25, 1978.

**Note 6—Advances From the Province of British Columbia**

The Province advanced \$14,355,123 to the Company for the purchase of Kootenay Forest Products Ltd. and the assets of the Kootenay Forest Products and Stafford Mills Divisions of the Eddy Match Company, Limited. This amount, repayable on demand, together with accrued interest of \$1,250,726, was still outstanding at December 31, 1974. This latter amount was to have been repaid quarterly.

**AUDITOR'S REPORT**

I have examined the balance sheet of British Columbia Cellulose Company as at December 31, 1974, and the statements of income and retained earnings and source and application of funds for the period from inception, March 15, 1973, to December 31, 1974. My examination included a general review of accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

For the subsidiary company accounted for by the equity method I have relied on the report of the auditors who have examined its financial statements.

In my opinion these financial statements present fairly the financial position of the Company as at December 31, 1974, and the results of its operations and source and application of its funds for the period from inception, March 15, 1973, to December 31, 1974, in accordance with generally accepted accounting principles.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

---

*for the period from Commencement of Operations on April 1, 1974 to March 31, 1975*

### 1. STATUS OF THE CORPORATION

The British Columbia Development Corporation was incorporated as a Crown Corporation under the Development Corporation of British Columbia Act, S.B.C. 1973, Chapter 27, assented to April 8, 1973. On January 17, 1974 the Lieutenant-Governor in Council proclaimed the Statute allowing the Corporation to create, develop, and increase income, employment, tax revenue, and other economic benefits to the Province by encouraging and assisting in the establishment, expansion, and continued operation of industrial enterprises in the Province. The Corporation may provide financial and technical assistance and may develop industrial sites in order to accomplish these objectives.

### 2. ACCOUNTING POLICIES

#### *Consolidation*

These consolidated financial statements incorporate the amounts representing the assets and liabilities, revenue and expenses of RMH Holdings Ltd., a wholly-owned subsidiary.

#### *Provision for losses on loans to industrial enterprises*

The Corporation has adopted the policy of providing for losses on loans at 5% of the amount of each loan at the time it is fully disbursed. The amount of actual losses when recognized, will be applied against this provision.

#### *Capitalization of costs — land held for development*

In addition to the acquisition cost of land and related development costs, the Corporation capitalizes carrying charges less rental revenue. The Corporation also allocates to carrying and development costs the salaries and expenses of personnel directly involved with land development. This capitalization policy has not resulted in land being reflected at value greater than estimated market value.

### 3. LAND HELD FOR DEVELOPMENT

Land has been acquired to create industrial parks. This land will be serviced and leased to industrial enterprises which will construct their own premises. Recorded costs comprise the following:

Acquisition costs	\$5,603,163
Carrying costs	323,873
Development costs	176,889
	<u>\$6,103,925</u>

During the period salaries and expenses of personnel in the amount of \$82,380 were capitalized.

---

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS** *(continued)*

---

**4. INVESTMENTS**

The Corporation has placed in the short term market funds not immediately required for use in industrial programmes.

**5. SHARE CAPITAL ISSUED**

Shares issued were sold to the Minister of Finance, Province of British Columbia, as follows:

April 1, 1974	150,000 shares	\$15,000,000
August 14, 1974	50,000 shares	5,000,000
	<u>200,000 shares</u>	<u>\$20,000,000</u>

**6. COMMITMENTS***Loans to industrial enterprises*

The Corporation has authorized various loans aggregating \$1,240,634 which have not yet been disbursed.

*Guarantee*

The Corporation has approved a guarantee of \$4,000,000 for bank loans which may be provided to an industrial enterprise. The pre-conditions under this guarantee have not yet been complied with.

*Office lease*

The Corporation has entered into a lease agreement for office premises for a period of 10 years. The annual rent is \$54,667 plus charges and tax escalation subject to renegotiation in 1979.

**7. CONTINGENT LIABILITY**

The Corporation is contingently liable in the amount of \$900,000 in respect of a bank loan of an industrial enterprise.

## AUDITOR'S REPORT

I have examined the statement of financial position of the British Columbia Harbours Board as at March 31, 1975, and the statement of operation and retained earnings and the statement of changes in financial position for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Board as at March 31, 1975, and the results of its operations and changes in financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

J. W. MINTY, C.A.

The accompanying notes are an integral part of this financial statement.

**NOTES TO THE FINANCIAL STATEMENTS, MARCH 31, 1975**

Note 1. Land and buildings are recorded at cost. During the fiscal year ended March 31, 1974, \$597,938 was transferred by management to land from buildings.

Note 2. Prior to April 1, 1973, depreciation was not charged against buildings and equipment because the cost of these assets was considered incidental to the cost of land. Depreciation is computed at 10 per cent of the diminishing balance.

Note 3. By agreement between the British Columbia Harbours Board and the users of its depreciable railway facilities, the users are responsible for renewing and replacing trackage as required and also, in case of abandonment, compensating the Board in full for sections abandoned; accordingly no provision for depreciation has been made in respect of railway facilities. The railway is valued at cost with the exception of an addition during the year ended March 31, 1974, to the right-of-way valued by management at \$1,277,000.

Note 4. During the period July 1, 1973, to March 31, 1974, the Board was required to pay 6 per cent interest on advances outstanding to the Province of British Columbia. Since April 1, 1974, interest is computed at the prime bank interest rate.

Note 5. At March 31, 1975, negotiations were taking place between the Board and the Department of Agriculture (British Columbia Land Commission) with regard to the transfer of some of the Board's land holdings to the department. Pending the outcome of these negotiations, the Deputy Minister of Finance authorized the deferment of interest payments due quarterly to the Minister of Finance on Province of British Columbia advances. At the year-end date the outstanding interest accrued in this respect was \$577,650, which is included in Accounts Payable.

Note 6. The Board's solicitor is acting as counsel on behalf of the Attorney-General of British Columbia in the matter of section 3 of the *Constitutional Questions Determination Act*, R.S.B.C. 1960, chapter 72, and in the matter of a reference by the Lieutenant-Governor in Council concerning the ownership of the bed of the Strait of Georgia and related areas as set out in Order in Council 3459, approved the 31st day of October 1974. It is expected that the British Columbia Court of Appeal will hear this case in November 1975 and the outcome is significant in determining the extent and value of the Board's land holdings, its lease revenue, and its operational responsibilities. The legal costs of the Board, which will be substantial, are being capitalized in the land account.

Note 7. The Board has authorized construction of an 8,200-foot extension to the rail-line on the south side of the Roberts Bank Causeway to handle increasing rail traffic. Engineering is complete and at year-end tenders had been called for construction at an estimated cost of \$450,000. The new line should be in service by July 1, 1975.

**BRITISH COLUMBIA HYDRO AND POWER AUTHORITY****REPORT OF THE AUDITORS**

The Lieutenant-Governor in Council,  
Province of British Columbia:

We have examined the balance sheet of British Columbia Hydro and Power Authority as at 31 March 1975, the statements of income, earnings retained in the business and source and application of funds for the year then ended and the statement of long-term debt as at 31 March 1975. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at 31 March 1975 and the results of its operations and the source and application of its funds for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Vancouver, British Columbia  
27 May 1975

## BRITISH COLUMBIA HYDRO AND POWER AUTHORITY

## NOTES TO FINANCIAL STATEMENTS AS AT 31 MARCH 1975

## Note 1 — Summary of significant accounting policies:

The accounting policies of B.C. Hydro conform to generally accepted accounting principles for public utilities. A description of significant accounting policies follows.

## Plant and depreciation —

The cost of plant financed by contributions arising from the Columbia River Treaty and by contributions in aid of construction, which include grants for rural electrification from the Government of the Province of British Columbia and amounts paid by customers towards construction of plant, is included in property account. Contributions arising from the Columbia River Treaty are being amortized over the remaining term of the Treaty, and the credit resulting therefrom is offset against and is equal to the annual provision for depreciation of the related assets. Contributions in aid of construction are being amortized over the estimated service lives of the related assets, and the credit resulting therefrom is offset against the applicable provision for depreciation.

Consistent with the accounting practice adopted in 1968, the construction costs of the dam, powerhouse and other common property relating to the Peace River Project are being transferred to plant in service by instalments proportionate to the number of completed and operational generating units in relation to the ten units presently contemplated. The transfers are to be completed not later than 31 March 1976. By 31 March 1975, nine generating units were in service and consequently 90% of the cost of the dam, powerhouse and other common property had been transferred to plant in service. The amount not yet transferred to plant in service is included in deferred costs under property account.

The difference of \$99,914,491 as at 31 March 1975 (\$89,624,500 as at 31 March 1974) between construction costs associated with the three Columbia River Treaty storage projects and the total contributions arising from the Columbia River Treaty is considered to relate to the future generation of power at the Mica damsite on the Columbia River and has also been included in deferred costs under property account. These costs will be transferred to plant in service as the Mica generating plant becomes operational.

B.C. Hydro charges interest to these deferred costs and to plant under construction at rates equivalent to the cost of borrowing funds.

The depreciation policy of B.C. Hydro is to allocate the original cost of plant to operations over the estimated service lives of the assets. Depreciation is provided on all depreciable assets in service at the beginning of each year and is computed on the straight-line method.

## Unamortized discount and expense on debt —

These costs are amortized by charges to expense over the original life of the respective issues.

## Foreign exchange —

The liability for long-term debt payable in United States dollars has been translated to Canadian dollars at the rates of exchange prevailing at the date the debt was incurred. Translated at the rates prevailing at 31 March 1975, the liability for long-term debt payable in United States dollars would have been reduced by approximately \$6,600,000.

Current and working assets and current and accrued liabilities in United States dollars are translated at the rate of exchange prevailing at the date of the balance sheet. The resulting unrealized profits or losses, which were not significant for the years ended 31 March 1975 and 1974, have been included in income.

## Note 2 — Temporary investments:

	1975	1974
Short-term deposits and investment receipts—		
Banks .....	\$49,011,050	\$28,040,000
Other financial institutions .....	5,000,000	5,021,564
	<u>\$54,011,050</u>	<u>\$33,061,564</u>

**Note 3 — Funded reserve for insurance:**

In 1969, B.C. Hydro generally adopted a policy of self-insurance for damage to plant and equipment and for general liability where insurance was formerly purchased. An insurance reserve is being accumulated by annual charges to operations commensurate with the current cost of insurance. Funds equivalent to the reserve for insurance are invested in government and municipal bonds and short-term deposits with financial institutions.

Insurance coverage on major projects under construction has been purchased either by B.C. Hydro or by its contractors as required by B.C. Hydro. Motor buses, trolley coaches and service vehicles are insured by the Insurance Corporation of British Columbia. Fire insurance coverage on certain plant and equipment is also purchased to comply with trust deed requirements.

**Note 4 — Guarantee by Province of British Columbia:**

The Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt and Parity Development Bonds.

**Note 5 — Pension plans:**

Employees of B.C. Hydro are covered under contributory pension plans, and provisions are being made for current services according to the requirements of the various plans. Provision has been made for all known past service costs under these plans with the exception of those relating to a contributory plan introduced effective 1 January 1965. B.C. Hydro is funding the estimated past service costs of this plan by annual payments of \$393,800 over a fifteen-year period which commenced 1 April 1967. An actuarial survey of the plan will be made as at 31 December 1974; the last such survey was made as at 31 December 1970. The charge to income in respect of pension plans, including provision for supplementary payments and B.C. Hydro's share of Canada Pension Plan costs, for the year ended 31 March 1975 was \$8,488,927 (1974 — \$6,228,456).

**Note 6 — Reserve for stabilization of rates:**

This reserve is available to delay or minimize upward adjustments in electric and gas rates that might otherwise be necessary to cover short-term losses in operations.

**Note 7 — Interest on debt:**

	1975	1974
Gross interest . . . . .	\$170,130,530	\$140,890,318
Amortization of discount and expense . . . . .	<u>1,671,123</u>	<u>1,942,721</u>
	171,801,653	142,833,039
Less—		
Income from sinking fund investments held by Trustee . . . . .	<u>10,810,479</u>	<u>9,032,129</u>
	<u>\$160,991,174</u>	<u>\$133,800,910</u>

The interest rate on Series CG, CS and CY Parity Development Bonds was increased to 8½% from rates varying from 6% to 7% effective 1 September 1974.

**Note 8 — Commitments and contingencies:**

Purchase commitments and contracts of B.C. Hydro for capital projects aggregated approximately \$426,000,000 as at 31 March 1975.

A lawsuit was started on 17 July 1967 in the Supreme Court of British Columbia by the contractors constructing the underground powerhouse and associated works at Gordon M. Shrum Generating Station, alleging breach of contract. Amounts between \$20 million and \$30 million were claimed as damages. During the trial, the contractors introduced an alternative claim to which they gave priority for the total cost to them of the construction work, including interest and profit, and a balance owing of \$51 million was claimed. The alternative claim has been tried, and judgment has been delivered declaring the contractors to be entitled to compensation on the basis of quantum meruit. No assessment has been made by the Court of the amount of such compensation. In further Reasons for Judgment, dated 28 February 1975, the Trial Judge directed that compensation to the contractors based on quantum meruit be determined prior to either party appealing the judgment; proceedings resumed for this purpose on 14 April 1975. Any amount paid by B.C. Hydro as a result of this litigation will be capitalized as part of the cost of construction of the station and included in property account.

**AUDITOR'S REPORT**

I have examined the balance sheet of British Columbia Liquor Administration Branch as at March 31, 1975, and the related statement of income for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Branch as at March 31, 1975, and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## BRITISH COLUMBIA PETROLEUM CORPORATION

NOTES TO FINANCIAL STATEMENTS  
March 31, 1975

## 1. GAS SALES

Under the terms of an agreement between Westcoast Transmission Company Limited and British Columbia Petroleum Corporation effective November 1, 1973 the Corporation sells natural gas to Westcoast Transmission Company Limited at a price equal to the gross revenue received by that Company on the resale thereof less the total cost of service of that Company's utility system operation.

## 2. ADVANCES FOR EXPLORATION AND GAS DEVELOPMENT

Advances for exploration and gas development represent funds advanced to develop gas production. These advances are secured on property of the developer and are repayable out of future related production.

## 3. SUBSEQUENT EVENT

During the period April 1, 1975 to April 25, 1975 funds amounting to \$61,250,000 were transferred to the Provincial Treasury of the Province of British Columbia.

## 4. COMMITMENTS

(a) The Corporation has commitments under agreements for the lease of office premises extending to 1984. The aggregate payments under these leases amounted to approximately \$807,000 as at March 31, 1975.

(b) At March 31, 1975 the Corporation held several options to purchase land. By May 31, 1975 the Corporation exercised certain of these options and was committed to pay approximately \$4,100,000 for the land on which the options were exercised.

(c) Commitments of the Corporation for other capital projects and for advances for exploration and gas development amount to approximately \$2,900,000 as at March 31, 1975.

**Auditors' Report**To The Lieutenant-Governor in Council,  
Province of British Columbia

We have examined the balance sheet of the British Columbia Railway Company as of December 31, 1974 and the statements of income and deficit and changes in financial position for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

As described in Note 2 of the notes to the financial statements, a review of the past accounting policies of the company has been carried out. It was concluded that the financial statements as of December 31, 1973, on an overall basis, did not present fairly the cumulative operating results of the railway to that date and that certain of the past policies did not conform with the accounting

regulations of the Canadian Transport Commission.

In our opinion, these financial statements present fairly the financial position of the company at December 31, 1974 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles, including certain changes in accounting policies which were instituted in 1974 as a result of the conclusions, with which we agree, described in the preceding paragraph and applied retroactively to 1973 and prior periods, and which, after giving such retroactive effect, have been applied on a basis consistent with that of the preceding year.

## Notes to Financial Statements

December 31, 1974.

### 1. Significant accounting policies

The Canadian Transport Commission prescribes accounting regulations for Canadian railways subject to their jurisdiction. Although the British Columbia Railway Company is not subject to the jurisdiction of the Commission, management considers that these accounting regulations are the most appropriate basis for accounting for railways in Canada, and accordingly these regulations have been adopted to the extent that this is possible without submitting specific accounting policies and depreciation rates to the Commission for approval. Such approval is not available to carriers not subject to the jurisdiction of the Commission, however, management believes the policies and rates adopted are such that their use by a regulated carrier would receive approval.

#### Road property

New construction is recorded at cost and abandoned or relocated sections are removed at average unit costs. Elements of track structure installed during planned programs are recorded at cost and the material released is removed from the asset accounts at the average unit cost at the date of original installation. Labour costs for programmed replacements are expensed as incurred.

#### Depreciation

Depreciation is provided for major categories of property and equipment on the straight-line basis at composite rates estimated to reduce the original cost to estimated salvage value over the average service lives of the classes. The group method is used for recording depreciation under which the original cost of assets retired less salvage value is charged against accumulated depreciation. No gain or loss on retirements, other than on land, is included in operations. The original cost of principal assets less estimated salvage value is depreciated over the following number of years:

	<i>Number of Years</i>
Grades, surfacing and tunnels	100
Rails	50
Ties and ballast	25
Bridges	65
Locomotives and power units	25
Freight cars	33

**Repairs**

Repairs and non-programmed replacements of track structure are charged against current operations. Betterments and major track relocations are capitalized.

**Interest capitalized**

Interest on borrowed funds used for construction of extension lines is included in the asset cost. The rates at which interest is capitalized approximate the borrowing rates on the funds employed.

**Completion of construction**

All costs of constructing extension lines are capitalized to the date the line is certified operational by the British Columbia Department of Transport and Communications. Capitalization of interest ceases and provision of depreciation commences on the date of certification.

**Bond discount**

Bond discount is deferred and amortized over the term of the issue to which it relates. Unamortized amounts related to debt retired are charged against operations in the year the debt is retired unless the debt is specifically refinanced in which case the remaining amount is amortized over the balance of the life of the original debt.

**Materials and supplies**

Inventories of material and supplies are valued at the lower of average cost or net realizable value.

**Income taxes**

Under the provisions of the Income Tax Act, the company is exempt from Canadian federal and provincial income taxes.

**2. Restatement of previously reported amounts**

The past accounting policies of the company have been reviewed and, as a result of such review, management has concluded that the financial statements as of December 31, 1973, on an overall basis, did not present fairly the cumulative operating results of the railway to that date and it has also been concluded that certain of these policies did not conform with the accounting regulations prescribed by the Canadian Transport Commission. Appropriate accounting policies have been established in 1974 and it has been necessary to apply them retroactively from January 1, 1957 because of the significant effect on previously reported amounts and in order to establish a basis for the preparation of 1974 and future financial statements.

Previous management determined that the railway was considered operational for accounting purposes from Squamish, B.C. to Prince George, B.C. commencing January 1, 1957. No change has been made to this previously determined date as operations prior to that date were not as extensive as those in subsequent years and restatement of previously reported amounts was not considered to be practicable.

**Summary**

The following is a summary of the adjustments made to the previously reported income and deficit to reflect the adoption of the accounting policies referred to in Note 1:

	Cumulative Deficit to December 31, 1972	Loss for the Year ended December 31, 1973	Cumulative Deficit to December 31, 1973
Previously reported	<u>\$ 397,289</u>	<u>3,302,344</u>	<u>3,699,633</u>
Depreciation	27,197,815	2,556,816	29,754,631
Tracklaying labour	10,635,717	1,755,087	12,390,804
Interest	9,265,675	3,051,157	12,316,832
Maintenance	1,814,468	1,529,545	3,344,013
Bond discount	1,450,289	85,995	1,536,284
Other	<u>2,312,674</u>	<u>750,648</u>	<u>3,063,322</u>
	<u>52,676,638</u>	<u>9,729,248</u>	<u>62,405,886</u>
Restated	<u><u>\$53,073,927</u></u>	<u><u>13,031,592</u></u>	<u><u>66,105,519</u></u>

**Depreciation**

From January 1, 1957 to December 31, 1971, depreciation was provided at the rate of 10% of gross revenue. For 1972 and 1973, depreciation was provided on the straight-line basis applied to all amounts classified as depreciable assets except grades, ballast and tunnels. Prior to 1974, no depreciation was provided on assets acquired during the year.

Major extension lines constructed subsequent to December 31, 1956 were treated for accounting purposes as construction projects for up to two and one-half years following the date operating certificates were issued by the British Columbia Department of Transport and Communications. Revenue and expenses during the period when extension lines were classified as construction projects were significant and were included in the statement of income.

Depreciation was recomputed for 1973 and prior years to give effect to the policies referred to in Note 1.

**Tracklaying labour**

The labour cost of relay programs for replacement of elements of track structure was capitalized and the original labour cost of the elements removed was charged against accumulated depreciation. The accounting regulations specify that labour costs are to be expensed as they are incurred. Accordingly, tracklaying labour of relay programs from January 1, 1957 to December 31, 1973 has been charged against the previously reported deficit and costs of \$6,173,411 previously charged to accumulated depreciation have been reinstated as an element of track structure.

**Interest**

Interest capitalized as part of the cost of extension lines from the date of certification to the date when they were previously accounted for as operating lines has been

removed from the asset classification and charged against the previously reported deficit.

#### **Maintenance**

During the period from date of certification of the Fort Nelson extension to December 31, 1973, maintenance and train derailment costs were capitalized. These costs have been removed from the asset classification and charged against the previously reported deficit.

#### **Bond discount**

Bond discount on the issue of long-term debt was in some cases charged to construction. The portion incorrectly capitalized has been charged in part against previously reported deficit and the balance is classified as unamortized to be charged to operations over the remaining life of the related long-term debt.

#### **Other**

Other amounts charged against the previously reported deficit for adjustments which relate to periods prior to 1974 are for vacation pay, taxes, milling in transit payments due to another carrier which were not previously provided and foreign exchange on bonds payable. An immaterial net amount relating to numerous other prior period items has been adjusted through current operations.

Certain previously reported amounts have been reclassified to conform with the presentation adopted in 1974.

### **3. Guarantee of the Government of the Province of British Columbia**

Under the provisions of the Pacific Great Eastern Construction Loan Act, 1954, the Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the parity development bonds and long-term debt. The Act provides for the Province to advance funds to meet any requirements under this guarantee.

### **4. Parity development bonds**

These bonds are payable on demand of the holder, bear interest at 8½% (increased from 6½% on September 1, 1974) and if not previously redeemed, are due on September 15, 1976. No portion of the amount outstanding has been classified as current as it is not possible to estimate the amount which may be presented for repayment during 1975.

### **5. Long-term debt**

Long-term debt is not secured by assets of the railway. Bonds issued by the railway which are held in the sinking fund are not cancelled but for financial statement presentation have been deducted from the amounts shown as outstanding. As of December 31, 1974 such bonds held in the sinking fund aggregated \$27,782,000.

Bonds totalling \$41,528,000 which are held by the Minister of Finance for Canada contain a provision whereby under certain circumstances they may be presented for redemption upon six months notice given to the railway. After 1980 a further

\$51,000,000 of bonds are subject to redemption at the option of either the holder or the railway.

The railway has the right under certain circumstances to redeem bonds totalling \$28,905,000 and, at various dates after 1983, further bonds aggregating \$179,790,010. In some cases premiums up to 1% are payable on redemption.

Interest and debt expense related to long-term debt has been reduced by interest charged to construction of \$4,998,519 (1973 — \$3,942,717), sinking fund earnings on investments other than bonds issued by the British Columbia Railway Company totalling \$1,389,578 (1973 — \$1,680,773) and interest on temporary investment of long-term debt proceeds of \$1,796,632 (1973 — \$1,957,361).

Long-term debt outstanding, less current maturities, is as follows:

	1974	1973
Sinking fund bonds		
1981-1985 — 3¼% to 5%	\$ 21,265,000	21,805,000
1986-1990 — 4¾% to 8¼%	49,624,000	49,624,000
1991-1995 — 4.5% to 8.92%	108,672,250	95,991,250
1996-1999 — 7.08% to 10.4%	<u>169,896,000</u>	<u>128,030,000</u>
	349,457,250	295,450,250
Less sinking fund assets	<u>25,174,445</u>	<u>20,094,075</u>
	324,282,805	275,356,175
Serial bonds		
4¾% — due 1988	2,260,596	2,371,578
Notes payable to bank		
Due on demand after January 1,		
1976 with interest at prime		
rates (11% as of December 31, 1974)	<u>21,142,000</u>	<u>22,810,000</u>
	347,685,401	300,537,753
Deduct current obligations on		
long-term debt	<u>5,818,702</u>	<u>5,189,018</u>
	<u>\$341,866,699</u>	<u>295,348,735</u>

Long-term debt retirements and sinking fund provisions, excluding accelerated repayment provisions on bonds and bank loans, for the four years ending December 31, 1979 are \$10,128,089, \$11,314,554, \$10,517,942 and \$4,202,177.

Included in the above long-term debt outstanding at December 31, 1974 are obligations having a par value of \$42,098,000 payable in United States currency which have been recorded in Canadian funds at \$41,971,846. The Canadian equivalent of these obligations at December 31, 1974 is \$41,700,000.

#### 6. Share Capital

Authorized share capital is 2,105,729 shares of \$100 each of which 1,855,729 shares are outstanding and held by the Government of the Province of British Columbia.

**7. Contingent liabilities**

The railway is a defendant in a suit for unspecified damages brought by a construction contractor for claims in respect of work carried out on the Dease Lake extension and has also been advised by other construction contractors of their intention to commence similar actions. In the opinion of counsel, the company would be successful in defending the present action and any of the proposed actions that result in a suit. In the event that a judgement is awarded against the company the amount could be material and would be accounted for as part of the cost of the total road property. No provision has been made for these claims.

Under the terms of a rail car lease the railway has guaranteed the related temporary bank loan of the lessor which at December 31, 1974 amounted to U.S. \$9,433,000 which will be refinanced by long-term debt of the lessor and this will be guaranteed by the railway. Other provisions of this lease require the equipment to be used in the United States for stipulated periods. Failure of the railway to meet these requirements could result in additional payments by the railway up to a maximum of \$1,400,000 per year to 1979 reducing to a maximum of \$200,000 per year until 1992 and a further single maximum payment of \$2,100,000 up to 1976 and thereafter to 1981 in a reduced amount.

The railway has been advised by certain Indian band representatives of their intention to claim for damages in connection with construction of rail line over reserve lands. Any payments made in settlement of such claims should not be material and would be accounted for as part of the cost of the total road property.

**8. Commitments**

At December 31, 1974 the railway has outstanding commitments for construction and equipment totalling approximately \$35,000,000. In addition to these commitments, estimated costs to complete the Dease Lake extension total \$75,000,000 excluding interest.

**9. Employee benefit plans**

All employees participate in a contributory retirement plan and may be entitled to limited vested rights prior to retirement. As of December 31, 1972, the last date for which an actuarial valuation of the fund was made, there was an actuarial surplus of approximately \$4,000,000, which has not been reflected in the accounts.

Non-operating employees participate in a job security plan which provides for benefits to these employees in the event their employment is terminated by the railway. The railway is required to meet any deficiency created by payment of benefits. The estimated maximum liability is approximately \$2,200,000 in excess of the assets of the plan at December 31, 1974. From the inception of the plan in 1962 the total benefits paid amount to \$2,813. Any deficit created in the plan will be charged against operations at that time.

**10. Lease payments**

The railway has significant lease commitments for rolling stock and additional minor lease commitments for equipment and real estate which expire during varying periods

to 1994. Annual payments under lease contracts for the year ended December 31, 1974 were \$5,905,154 (1973 — \$1,231,305). The minimum average annual lease payments under existing leases at December 31, 1974 are payable as follows:

1975-1979	\$5,981,764
1980-1984	1,954,004
1985-1989	1,584,663
1990-1994	1,167,413

#### **11. Remuneration of directors and officers**

Total remuneration paid to five officers amounted to \$128,720 (three in 1973 — \$91,377). Remuneration paid to three directors who were not officers of the railway amounted to \$7,525 (two in 1973 — \$6,000).

#### **12. Subsequent events**

During January and April of 1975, the railway received grants totalling \$35,000,000 from the Government of the Province of British Columbia. These amounts were used to discharge obligations arising from both capital construction and operations.

### AUDITOR'S REPORT

I have examined the statement of assets and liabilities of the British Columbia Regional Hospital Districts Financing Authority as at March 31, 1975, and the related statement of receipts and disbursements for the year then ended.

In my opinion these financial statements present fairly the financial position of the Authority as at March 31, 1975, and the result of its operations for the year then ended, in accordance with generally accepted accounting principals applied on a basis consistent with that of the preceding year.

Dunhill Development  
Corporation Ltd.  
And Subsidiary Companies

## Notes to Consolidated Financial Statements

for the year ended October 31, 1974

### 1. Acquisition of the Company by the Province of British Columbia

Pursuant to an agreement dated January 25, 1974, the Province of British Columbia, through a Crown corporation, Woodbridge Development Corporation, acquired by May 22, 1974, sufficient of the outstanding shares of the company to qualify Dunhill as a tax exempt corporation for income tax purposes.

Woodbridge Development Corporation was subsequently wound up and on June 7, 1974, the company became wholly-owned directly by the Province.

### 2. Significant Accounting Policies

#### a) Principles of consolidation

The consolidated financial statements include:

- (i) The accounts of Dunhill Development Corporation Ltd. and its subsidiaries which are all 100% owned:
  - W.K.P. Construction Ltd.
  - Crown Lumber Limited
  - Fisher Developments Ltd.
  - Dunhill Homes Ltd.
  - Dunhill Holdings Ltd.
  - United Provincial Investments Ltd.
  - Ventures Realty Ltd.
  - Georgia Park Holdings Ltd.
- (ii) The companies' proportionate share of the results of operations, assets and liabilities of joint ventures.

#### b) Land

Land is recorded at cost plus applicable carrying charges and development costs. Carrying charges include interest, property taxes and applicable overhead costs.

As at October 31, 1974, the amount of interest and overhead so capitalized and included in land and development (net of transfers to cost of sales) was \$185,676 (1973 — \$394,200).

#### c) Inventory of lumber

Inventory is valued at the lower of cost and net realizable value.

#### d) Depreciation and amortization

The provision for depreciation and amortization is calculated using the straight-line method.

### 3. Acquisitions and Disposals

On January 31, 1974, the company purchased the remaining 50% of the issued shares of Crown Lumber Ltd. for \$125,056, being 50% of its net book value as at that date. Crown Lumber Ltd. is now a wholly-owned subsidiary of the company.

On July 8, 1974, the company sold its 50% interest in the issued shares of Highland Realty (1966) Ltd. for \$15,000, being the carrying value of the shares.

Pursuant to the agreement of January 25, 1974 (note 1), the company sold its interest in Dunhill Development Corporation Inc., a United States corporation, for \$9,454, being the carrying value of that company.

### 4. Land

	Under development	
	1974	1973
Land - including carrying charges..	\$ 625,502	\$ 932,531
Development .....	2,388,078	3,124,486
	<u>\$3,013,580</u>	<u>\$4,057,017</u>
	Held for future development or resale	
	1974	1973
Land - including carrying charges..	\$3,695,423	\$3,664,490
Development .....	697,428	663,374
	<u>\$4,392,851</u>	<u>\$4,327,864</u>

**5. Work in Progress**

	1974	1973
Costs incurred to date .....	\$965,340	
Less: Advances from the Department of Housing .....	572,975	
	<u>\$392,365</u>	<u>\$ Nil</u>

During 1974, the company undertook certain projects for the Department of Housing of the Province of British Columbia. The company is reimbursed for construction and development costs and is paid a contractor's fee.

**6. Other Assets**

	1974	1973
Fixed assets at cost less accumulated depreciation 1974 — \$113,992; 1973 — \$47,205 .....	\$142,555	\$ 79,310
Property management contract at cost less accumulated amortization 1974—\$16,250; 1973 — \$9,750 .....	48,750	55,250
Associated companies' shares on an equity basis .....		119,410
	<u>\$191,305</u>	<u>\$253,970</u>

**7. Bank Indebtedness**

The bank indebtedness is secured by:

- A fixed and floating charge in the amount of \$2,000,000 on all the properties and assets of the companies, subject to specific other charges (note 8).
- Assignment of accounts receivable and of certain mortgages in the amount of \$1,549,088.

c) A collateral first mortgage in the amount of \$750,000 on certain developed and undeveloped land.

d) Assignment of payments to be received under certain mortgage commitments.

**8. Mortgages and Agreements Payable**

	1974	1973
Mortgages on unsold condominium units with interest at 9.25% per annum. These mortgages are assumed by the purchasers as the units are sold .....	\$1,107,180	\$1,636,736
Mortgages and agreements on condominium units, to be paid by May 31, 1975 with interest at 8% per annum .....	186,500	374,345
Mortgages on land held for future development with interest at 9% to 9.5% per annum .....	698,726	1,738,864
	<u>\$1,992,406</u>	<u>\$3,749,945</u>

**9. Income Taxes**

On May 22, 1974, the company qualified as a provincial corporation under Section 149 of the Income Tax Act of Canada and as such, is not subject to Federal or Provincial income taxes from that date. The income tax provision is the charge for the portion of the year that the company was subject to income taxes.

**10. Deferred Income Taxes**

In prior years, income taxes otherwise payable were reduced by the utilization of certain timing differences allowed in the calculation of income taxes payable.

Since the company is no longer liable for income taxes (note 9), accumulated deferred income taxes in the amount of \$498,728 have been accounted for as an extraordinary item of income in the consolidated statement of earnings.

#### 11. Share Capital

The company's authorized share capital consists of 2,000,000 common shares of no par value. As at October 31, 1974, the issued common shares were as follows:

	Number of shares	
Balance — beginning of year . . .	1,350,584	\$1,895,444
Add: Employee stock options exercised . . . . .	4,500	6,725
	<u>1,355,084</u>	<u>\$1,902,169</u>

Pursuant to the agreement dated January 25, 1974 (note 1), all outstanding employee stock options were cancelled.

#### 12. Statutory information

	1974	1973
Remuneration of directors and senior officers . . . . .	<u>\$246,113</u>	<u>\$220,000</u>

#### 13. Contingent Liabilities

The company is contingently liable for:

- mortgages assumed by purchasers of properties developed and sold by the company;
- for its partners' share of joint venture liabilities, all of the assets of the joint ventures being available for the purposes of satisfying any such obligations.

#### Auditors' Report to the Shareholder

We have examined the consolidated balance sheet of Dunhill Development Corporation Ltd. and its subsidiaries as at October 31, 1974 and the consolidated statements of earnings, retained earnings and changes in financial position for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these consolidated financial statements present fairly the financial position of the companies as at October 31, 1974, and the results of their operations and the changes in financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## INSURANCE CORPORATION OF BRITISH COLUMBIA

**NOTES TO  
FINANCIAL STATEMENTS****1. STATUS OF THE CORPORATION**

The Insurance Corporation of British Columbia (ICBC) is incorporated as a crown corporation under the Insurance Corporation of British Columbia Act. S.B.C. 1973 (1st session), Chapter 44, assented to April 18, 1973. By subsequent approval of the Lieutenant-Governor in Council, and in accordance with the Act, ICBC has the power and capacity to act as an insurer and reinsurer in all classes of insurance and to operate and administer the plan of automobile insurance described in the Automobile Insurance Act (AIA).

By regulation under the AIA, the plan of automobile insurance is administered as a Fund which is an entity for financial accounting purposes. Also by regulation, a statement showing the results of the operation of the Fund is attached to the financial statement of the Insurance Corporation of British Columbia and the balance of the Fund, which represents its net operating position, is reflected in the balance sheet of the Corporation. All assets and liabilities are held by ICBC. The Fund consists of the revenues and expenses attributable to the AIA operations.

**2. BASIS OF REPORTING**

As prescribed by Section 18(3) of the Insurance Corporation of British Columbia Act as amended June 20, 1974, the financial statements of the Corporation are presented in accordance with generally accepted accounting principles. In this respect, the reporting conforms to that suggested in a 1974 research study of the Canadian Institute of Chartered Accountants. Not all property and casualty insurance companies in Canada report on this basis. The financial results for the period ended February 28, 1974, have been restated where necessary to comply with generally accepted accounting principles.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****Inventories**

Inventories of salvage vehicles are valued at the average selling price for the year. All other inventories are valued at cost.

**Prepaid 1975 Autoplan Administrative Expenses**

Costs incurred in the period ended February 28, 1975, relating to the operations of the AIA Fund for 1975-76, totalling \$1,662,000 are recorded as prepaid expenses to be charged to 1975-76 operations. Included in the current year operations of the Fund are \$1,265,000 of Autoplan costs deferred from the previous year.

**Depreciation**

Depreciation is provided on a straight-line basis commencing in the month following that in which assets are placed in service at rates which will amortize the original cost over the useful life of each asset.

**Start-up Costs**

Costs associated with the commencement of operations of ICBC and the AIA Fund have been deferred and are being amortized on a straight-line basis from March 1, 1974, or from the date incurred, whichever is later, to February 28, 1979.

**Premium Acquisition Costs**

Commissions and premium taxes are

deferred and charged to expense over the terms of the policies to which such costs relate.

**Unearned Premiums**

The liability for unearned premiums is the portion of premiums that relates to the unexpired term of each insurance policy.

**Premiums Received in Advance**

This amount represents vehicle premiums received to February 28, 1975, which relate to the following fiscal year.

**Provision for Unpaid Claims**

The provision for unpaid claims is established on the basis of reported losses plus an estimate for unreported losses as of February 28, 1975. Estimated unreported losses included in the provision for unpaid claims at February 28, 1975, are as follows:

Automobile Insurance	
Act Fund	\$11,023,000
General Insurance	185,000
	<u>\$11,208,000</u>

**4. INVESTMENTS**

It is the intention to use all investments held at February 28, 1975, for short-term purposes. Consequently investments are carried at market value and the excess (\$601,000) of market value over cost is included in investment income.

**5. PROPERTY AND EQUIPMENT**

The cost of major classes of property and equipment and the related depreciation rates are as follows:

	1975	1974	Depreciation Rates
Land	\$ 9,674,000	\$ 9,045,000	—
Buildings	19,283,000	456,000	5-10%
Construction in progress	—	5,137,000	—
Furniture and equipment	3,454,000	1,279,000	10-25%
Leasehold improvements	865,000	265,000	See Below
	<u>33,276,000</u>	<u>16,182,000</u>	
Accumulated depreciation and amortization	845,000	74,000	
	<u>\$32,431,000</u>	<u>\$16,108,000</u>	

Leasehold improvements are amortized over the life of the lease plus the first renewal period.

**6. UNEARNED PREMIUMS**

	1975	1974
General Insurance	\$ 4,540,000	\$1,214,000
Drivers' premium	7,350,000	—
	<u>\$11,890,000</u>	<u>\$1,214,000</u>

**7. COMMITMENTS**

In addition to the \$32,431,000 net cost of Property and Equipment included in the balance sheet, an estimated further amount of \$6,800,000 has been committed in respect of the building and land acquisition program.

The Corporation is committed to make the following payments during the next four years on property and equipment leased for periods of more than one year:

1976	\$3,300,000
1977	2,900,000
1978	2,500,000
1979	1,800,000

The Corporation is currently negotiating its first contract with the

Office and Technical Employee's Union, Local 378. While the Union is requesting a settlement involving retroactive payment, no agreement has been reached.

**8. LITIGATION**

By the recent decision in the case of The Canadian Indemnity Company Ltd. et al vs. the Attorney General of British Columbia, the Supreme Court of British Columbia held in favour of the Attorney General.

An appeal from that decision to the British Columbia Court of Appeal is pending and in the event that a further appeal is made to the Supreme Court of Canada, a final decision may not be forthcoming for approximately two years.

Should a decision favourable to The Canadian Indemnity Company Ltd. et al be rendered such companies would be free to re-enter the field of automobile insurance in British Columbia.

**9. SUPPLEMENTARY REVENUE**

Under Section 16(2) of the Insurance Corporation of British Columbia Act, the Lieutenant-Governor in Council may, by order, direct the Minister of Finance to pay to the Insurance Corporation of British Columbia such amounts as are considered advisable but not to exceed the equivalent of the proceeds of:

- (a) A tax of ten cents per gallon on every gallon taxable under the Gasoline Tax Act 1943 and 1958, Coloured Gasoline Tax Act and Motive-Fuel Use Tax Act; and
- (b) Such portion as is considered advisable of the fees payable under the Motor Vehicle Act, Commercial Transport Act and Motor Carrier Act.

**AUDITORS' REPORT**

The Honourable Robert M. Strachan,  
Minister of Transport  
and Communications,  
Province of British Columbia.

We have examined the balance sheet of the Insurance Corporation of British Columbia as at February 28, 1975, and the statements of general insurance operations and changes in financial position for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered

necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation as at February 28, 1975, and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period (after revision of the financial statements for that period as explained in Note 2).

Our examination also included the statement of operations of the Automobile Insurance Act Fund for

the year ended February 28, 1975.

In our opinion this statement presents fairly the results of the operation of the Fund in accordance with generally accepted accounting principles consistently applied.

OCEAN FALLS CORPORATION  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 1974

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Pursuant to an agreement effective April 2, 1973 the corporation purchased from Crown Zellerbach Canada Limited all of that company's real and personal property located at Ocean Falls, British Columbia for \$1,000,000. The total purchase price was allocated to land and houses held for resale.

Inventories of finished goods are valued at the lower of cost or net realizable value. Inventories of work in progress, raw materials, supplies and logs are valued at the lower of cost or replacement cost.

Equipment is being depreciated on a straight-line basis over its estimated useful life. Depreciation charged to operations in 1974 and included in operating costs and expenses amounted to \$67,858 (1973 - \$13,844).

2. INVENTORIES

Inventories consist of:

	<u>1974</u>	<u>1973</u>
Finished newsprint	\$ 518,307	\$ 421,371
Work in progress	58,098	30,520
Logs	969,107	678,678
Raw material	1,418,710	612,273
Supplies	1,354,253	401,271
	<u>\$4,318,475</u>	<u>\$2,144,113</u>

Crown Zellerbach Canada Limited has agreed to supply the corporation with logs and semi-bleached kraft pulp at prevailing market prices sufficient to maintain full production until December 31, 1975.

3. DEFERRED CHARGES

Deferred charges are the cost of feasibility studies for future expansion which will be either capitalized or expensed as decisions are made on the results of the studies.

4. DEMAND LOAN

The loan bears interest at the chartered bank prime interest rate as announced from time to time and is secured by a demand debenture with a first charge on the real and personal property, works and undertaking of the corporation. Interest is either payable or added to the principal amount quarterly. No interest payments were made in either 1973 or 1974.

OCEAN FALLS CORPORATION

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1974

5. STATUTORY INFORMATION

Aggregate remuneration of directors and senior officers, as defined in the B.C. Companies Act 1973, amounted to \$198,816 (1973 - \$122,108).

6. COMMITMENTS

At December 31, 1974 the corporation was committed to capital expenditures of approximately \$600,000.

PLATEAU MILLS LTD. AND SUBSIDIARIES  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1974

1. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the parent company together with its wholly-owned subsidiaries, Plateau Timber Ltd. and Nechako Valley Pulp Mill Ltd. Effective January 1, 1974 the assets and liabilities of L P Timber Ltd., a wholly-owned subsidiary, were transferred at their net book values to Plateau Mills Ltd. and the company was subsequently wound up.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventories:

Log and lumber inventories are recorded at the lower of cost and net realizable value.

Depreciation:

The company records depreciation on buildings and mill equipment on the declining-balance method at rates varying between 4% and 30%.

Depreciation on logging equipment is on a straight-line basis at 20%.

Logging road costs are amortized on the basis of timber removed from each area. In prior years the company amortized these costs on the declining-balance method at 30%. If the company had not changed its method of amortization, the loss for the year would have been increased and retained earnings would have been decreased by \$54,613.

Comparative Figures:

Where applicable, comparative figures have been restated to conform with the presentation used in the current year.

PLATEAU MILLS LTD. AND SUBSIDIARIES  
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED DECEMBER 31, 1974

## 3. FIXED ASSETS

	1 9 7 4		1973

	<u><u>          </u></u>	<u><u>          </u></u>	<u><u>          </u></u>

## 4. OTHER ASSETS

	1974 \$	1973 \$
Continuous and refundable timber sale deposits		
- at cost	95,800	95,800
Deferred finance charges	24,063	
Incorporation and other costs	<u>          </u>	<u>964</u>
	119,863	96,764
	<u><u>          </u></u>	<u><u>          </u></u>

## 5. BANK LOANS

The bank loans are secured by a pledging of inventories under Section 88 of the Bank Act, by a general assignment of accounts receivable and by a debenture in the amount of \$4,500,000 which places a first fixed charge on the company's fixed assets and a floating charge on the remaining assets and undertakings of the company. Fire insurance policies on inventories, buildings and equipment are lodged with and payable to bank.

Under the terms of the bank loans, the company has agreed not to exceed approved capital expenditures or pay dividends without obtaining the bank's approval.

## PIATEAU MILLS LTD. AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1974

## 6. LONG-TERM DEBT

	1974 \$	1973 \$
Capital expenditure loan, repayable in semi-annual instalments of \$109,090	854,540	963,630
Special loan, repayable in annual instalments of \$50,000	150,000	200,000
Term loan, repayable in annual instalments of \$225,000	1,500,000	
Equipment purchase agreements, at varying rates of interest and dates of maturity from 1975 to 1977	<u>200,204</u>	<u>59,078</u>
	2,704,744	1,222,708
Less: Current portion	<u>747,814</u>	<u>313,381</u>
	<u>1,956,930</u>	<u>909,327</u>

## 7. INCOME TAXES

Losses for income tax purposes have been carried back to be applied against 1973 income for tax purposes. Deferred income taxes arising in 1974 from available capital cost allowance in excess of depreciation booked, have been credited to earnings as an extraordinary gain since the company, as a Crown Corporation, will be exempt from future income taxes.

## 8. ADMINISTRATIVE COSTS

	1974 \$	1973 \$
Included in administrative costs are the following items:		
Interest - short-term	197,055	8,009
- long-term	104,519	124,294
Remuneration of directors and senior officers	130,728	152,672

**AUDITOR'S REPORT**

I have examined the statement of financial position of The Overall Medical Services Plan of British Columbia and its licensed carriers operating under the direction and control of the Medical Services Commission of British Columbia as at March 31, 1975, and the related statement of operations and contingency reserve for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of The Overall Medical Services Plan as at March 31, 1975, and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## THE OVERALL MEDICAL SERVICES PLAN OF BRITISH COLUMBIA —Continued

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1975

#### 1. Accounting Policies

*Income determination*—The Commission recognizes premium income as it is received from its licensed carriers. Premiums paid in advance are shown as a liability until the month in which they are earned. Interest and Government grants are recognized as income when received.

*Benefit costs*—The Commission provides for unrepresented and unprocessed benefit costs. These costs are charged to income for the year on the basis of historical claims experience relating to operations conducted to March 31, 1975.

*Administration expenses*—The public sector activities of the licensed carriers, Medical Services Association, and C.U. & C. Health Services Society are in process of amalgamation with the operations of the Medical Services Plan of British Columbia. This has resulted in certain nonrecurring expenses which have been shown separately in the Statement of Operations.

#### 2. Investments

Investments consist of short-term deposits with commercial banks and are recorded at cost.

J. A. SPENCER, C.A.  
*Director, Finance*

TERENCE G. ISON  
*Chairman*

**AUDITOR'S REPORT**

I have examined the statement of assets and liabilities of the Workers' Compensation Board of British Columbia as at December 31, 1974, and the condensed statement of fund transactions for the year then ended. My examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as I considered necessary in the circumstances.

I have relied upon the certificate of the Board's consulting actuaries in respect of assessment income for the current year, the Accident Fund provision for costs of accidents incurred but not yet fully paid, and the reserves provided for life and term pensions awarded under the Accident Fund and the Silicosis Fund.

In my opinion these financial statements present fairly the financial position of the Board as at December 31, 1974, and the results of its operations for the year then ended, in accordance with the accounts maintained by the Board, and with the exception of the treatment accorded to the legislative amendments referred to in note 3 to these financial statements, with which I concur, are on a basis consistent with that of the preceding year.

J. W. MINTY, C.A.  
*Comptroller-General, Province of British Columbia*

March 12, 1975, Victoria, B.C.

**WORKERS' COMPENSATION BOARD—Continued****NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1974****Note 1—Assessments and prior years' adjustments**

Since 1970 the method of assessing requires quarterly remittances by employers having annual assessments of \$100 or more and annual remittances by employers having annual assessments of less than \$100.

As the fourth quarter remittances and the annual remittances are receivable early in the next year, assessment income for the current year is calculated by reference to an actuarial estimate of assessable payrolls.

Adjustments to this actuarial estimate are made in the following year and are shown separately in the Condensed Statement of Fund Transactions.

**Note 2—Deferred capital expenditure**

Major expenditures in 1974 are being amortized over a period of years consistent with the accounting practice adopted in 1970. These expenditures include new construction, major alterations, and related furnishings. Expenditures are not subject to amortization until the related facility is first put into operation.

The unamortized balance, shown on the statement of assets and liabilities as "Deferred capital expenditures", includes

	\$
Balance—January 1, 1974 .....	7,742,585
Net expended in 1974 .....	3,662,771
	11,405,356
Amortized (charged to industry classes) in 1974 .....	1,166,717
Balance—December 31, 1974 .....	<u>10,238,639</u>

In addition, outstanding commitments under building contracts at December 31, 1974, amounted to \$4,105,951.

**Note 3—1974 Amendments**

Amendments to the Act which became effective on the first day of July 1974 made provision for increases in benefits payable in respect of many claims arising prior to that date. But the Act makes no provision for reserves to be established in respect of those increases, and the annual cost of those increases is payable out of assessments levied during each year. For the period July 1 to December 31, 1974, the cost of these increases was approximately \$1,700,000. During 1975 the cost of these increases is estimated at approximately \$3,700,000. The effect of the change is that the present value of these benefit increments, totalling \$37,880,000, is to be met by assessments in the years of payment, and not by establishing capital reserves.

**Note 4—Silicosis reserve**

Liability for costs of future benefits not yet awarded in respect of silicosis pensions awarded to date has not been taken into the books of account as section 39 (2) of the *Workers' Compensation Act* provides only for costs of claims allowed.

**Note 5—Actuarial requirements**

*Actuarial provision for costs of accidents incurred but not yet fully paid*—The increase in the average wage rates together with the effect of the current rate of inflation on claim costs, e.g., medical, hospital has resulted in an additional actuarial provision of \$32,969,621 to meet accidents incurred but not yet fully paid.

*Additional requirement*—The recent rate of inflation has resulted in \$12,673,895 being necessary for cost-of-living increases greater than anticipated when the reserves for each claim were first established.

**Note 6—Hearing loss**

Section 7A has not yet been proclaimed and therefore there is no cost experience charged to the classes under this section.

**Note 7—General administration**

This includes disbursements for rehabilitation.

**WORKERS' COMPENSATION BOARD—Continued****ACTUARIAL CERTIFICATE**

In prior years our certificates have confirmed calculations made by the Actuarial and Research Department of the Workers' Compensation Board which covered the present value of future payments on life on term pensions awarded to date and future benefits not yet awarded in respect of accidents incurred and silicosis pensions awarded to date. The Board has determined that the increases in benefits provided by the *Workmen's Compensation Amendment Act, 1974* in respect of claims incurred and silicosis pensions awarded prior to July 1, 1974, are to be met by assessments in the year of payment and not by establishing capital reserves.

As at December 31, 1974, we examined the calculations made by the staff of the Board in arriving at the amounts shown below. The present values of all future payments were first determined based upon accepted actuarial and statistical principles and assumptions recommended or confirmed by us and adopted by the Board and these results were then reduced by an estimate which we checked for reasonableness of the present value of the said increases arising from the 1974 Act. We certify that the following amounts make reasonable provision for the indicated payments, exclusive of the increases in future payments provided by the *Workmen's Compensation Amendment Act, 1974* in respect of claims incurred and silicosis pensions awarded prior to July 1, 1974.

<b>A. Accident Fund</b>	\$
(1) Present value of future payments on life or term pensions awarded to date	248,445,531
(2) Present value of future benefits not yet awarded in respect of accidents incurred to date .....	130,663,453
<b>B. Silicosis Fund</b>	
(1) Present value of future payments on life or term pensions awarded to date	8,123,051
(2) Present value of future benefits in respect of silicosis pensions awarded to date .....	2,459,913

We further certify that the statistical estimate of the 1974 assessable payroll, made early in 1975 by the staff of the Board, was reviewed and confirmed by us and that the application of assessment rates adopted by the Board to such payroll allocated by class and subclass provides a reasonable estimate of total assessments for 1974 amounting to \$92,998,019.
